Wilsonart

EDGEBAND

COST-EFFECTIVE DESIGN SOLUTIONS

At last, an Edgeband solution that complements nearly 200 Wilsonart® Contract Laminate designs!

Wilsonart® Edgeband is made of ABS plastic*, a recyclable, chlorine-free polymer that offers these benefits over traditional PVC and HPL strip edging:

- A smoother finish
- More heat resistant
- Minimizes heat shrinkage issues
- Minimizes attraction of dust
- Lighter weight
- Easier to handle
- Less costly to ship
- No special set-up, machining or adhesives

* Woodgrain designs in 3MM will be stocked in PVC, with color-through graining that eliminates "picture framing" effect when trimmed.

Suggested Uses

Cabinets, Cabinet Doors, Drawers, Shelves, Tables, Furniture, Fixtures, Countertops.

Use 3MM edgebanding for impact resistant edges on interior doors and work surfaces.
